

not so easily determine the right to the land
itself - it would only be a boundary as to the
Tithes but if we could prove 30 years user
the property would be ours & the tithes might
be payable to Tent - Little Dale is private
property & has a Tithe Commission here
to decide upon the right of property, is not his
sole competence to settle boundaries for
the purchase of Tithes

Since from Mr Watson the disputed land
is more than seven hundred acres
has his plan to do with the Tent boundary
marked upon it - Has your wife put yourself
in communication with him

Believe me
Yours truly
I am very sincerely
